## Heavy Duty Mechanic Edmonton, AB

The successful candidate will assemble and repair truck mounted cranes. Other business lines include forklift repair and attachment assembly.

Reporting to the Shop Foreman, this highly skilled journeyman tradesperson performs all the duties of a senior mechanic, provides exceptional customer service, ensures and promotes workplace safety, conducts product inspection and ensures superior workmanship and quality.

### Key responsibilities include:

- Active participation in the safety program
- Interpretation and completion of work orders
- Equipment maintenance, cleaning and lubrication
- Diagnostic skills to evaluate and repair faults or malfunctions
- Adjust equipment and repair or replace defective parts, components or systems
- Equipment testing to ensure appropriate performance and guarantee that the completed work meets all required specifications and legislated regulations

### Qualifications:

Journeyman Heavy Duty Mechanic (Off-Road Technician) with five years crane manufacturing and/or maintenance experience is preferred. Welding and or hydraulic experience preferred.

### Please forward your cover letter and resume to:
